    - *Nutrition:* Fuel your body with the energy needed to maintain a muscle-building, fat-burning state.
    - *Resistance Training:* Increase your strength and build lean muscle.
    - *Cardiovascular Exercise:* Optimize "fat burning" and heart health.
    - *Stretching:* Accelerate recovery and prevent injury.
    - *Coaching:* Motivate, support, and encourage you as needed.

Your Commitment to Us:

- **Consistent Workouts:** Work out a minimum of 2–3 days per week until the program is complete. If you cancel a session, make it up within the same week or the following week.
- **Lifestyle Changes:** Put in your best effort to take small, specific, concrete actions we agree upon, such as improving stress management, sleep, nutrition, etc., to move closer to your goals.

Our Guarantee:

If you complete the program and honestly feel that you do not look or feel better than when you first started, we will refund your investment.
